- ✓ All adhesives are 100% formaldehyde free and environmentally friendly

Valinge 5G

Click technology for easy and secure installation

LUX OAK Engineered Oak Flooring features Valinge 5G locking technology. 5G is the very best click technology that will ensure easy and secure installation for the DIY and professional installer.

Valinge 5G single action installation method is globally recognised and used around the world. The boards are locked on the long side with a traditional angling method. The 5G locking system enables fast and secure installation by vertical snap without the need for any tools.

Sustainably and Responsibly Harvested Timber

LUX OAK Engineered Oak Flooring is sourced from responsibly managed forests.

Forest Stewardship Council certification.

FSC has a global forest certification system to provide a guarantee that forest products come from responsibly managed sources.

MANUFACTURED TO AUSTRALIAN STANDARDS

WARRANTY

LUX OAK Engineered Oak Flooring is protected by a lifetime residential wear warranty and a lifetime manufacturing defects guarantee. Terms and conditions apply. For further warranty information please refer to the warranty PDF document available upon request.

SCRATCH RESISTANT

LUX OAK Engineered Oak Flooring offers 7 coats of Treffert UV lacquer. Treffert is a 100% polyurethane water-based top coat for the treatment of timber floors subjected to very heavy wear. Treffert is a clear non-yellowing coating that enhances the look and feel of oak flooring.

REAL FRENCH OAK FLOORING

LUX OAK Engineered Oak Flooring offers real French Oak veneer.

EASY TO KEEP CLEAN

LUX OAK Engineered Oak Flooring is very easy to keep clean and looking new. We recommend a moist mop and low alkaline cleaners.

COMFORTABLE UNDERFOOT

LUX OAK Engineered Oak Flooring feels solid, nice, warm and comfortable underfoot.

EASY AND SECURE INSTALLATION

LUX OAK Engineered Oak Flooring offers the latest in click technology for easy and secure installation for the DIY and the professional installer.

UB MANUFACTURING ADVANTAGE

- ✓ Advanced kiln drying chambers and water bath drying technology allows accurate moisture control in the wood which provides stability in our flooring.
- ✓ Camera Wood Eye technology allows for 99% grading accuracy in colour and thickness.
- ✓ Bona finishing flexi lacquer coating line from Sweden ensures our planks are perfectly coated every time.
- ✓ 7 layers dry on dry coating allows for the most durable natural looking coatings.
- ✓ Heated coaters for consistent gloss level to enhance the look and feel of natural wood.
- ✓ Boric treatment that makes our planks odour free, mould resistant, insect resistant and fungi resistant.

ACOUSTIC UNDERLAY

We recommend that you combine LUX OAK Engineered Oak Flooring with UB-CR750 cork / rubber underlay to achieve the highest possible AAAC acoustic star ratings.

	UBCR750-3MM	UBCR750-5MM
Underlay Thickness	3mm	5mm
Underlay Density	750kg/m ³	750kg/m ³
LnT,w db	44 db	42 db
AAAC Star Rating	5 Star	6 Star

UB-CR750-3MM is a 3mm thick cork / rubber underlay with a density weight of 750kg/m³

UB-CR750-5MM is a 5mm thick cork / rubber underlay with a density weight of 750kg/m³
