# What you will feel...

## Unrivalled Softness

Aquis Comfort Acoustic features a specialised dense core that provides subtle cushioning. It reduces fatigue when standing and feels gentler on the knees during work or playtime.

## Natural Warmth

Our thermal-optimised construction naturally retains ambient room temperature. It greets your feet with a pleasant warmth even on those chilly early mornings.

## Acoustic Serenity

Aquis Comfort Acoustic is engineered to absorb the noise in your home by minimising noise reverberation. Everyday family sounds and footfalls are significantly reduced creating a peaceful environment of true acoustic serenity.

**AAAC 6 Star** ★★★★★★ (Airborne RW+Ctr)

**AAAC 5 Star** ★★★★★ (Impact Sound Lnw 42)

Both results significantly exceed the minimum requirements of the National Construction Code (NCC).\*

\*Performance is based on the specific floor-ceiling construction tested. Results will vary depending on your buildings' actual construction. Our full acoustic report is available on request.

# Our new designs for you...

We are proud to present the Aquis Comfort Acoustic colour collection.

By hand-selecting every single shade, tone, and texture we have captured the authentic beauty and feel of natural timber flooring. We paired warm tones with clean non-intrusive pattern designs that often surpasses real wood flooring. Then to bring the colours and patterns to life we added a delicate light emboss so that your feet feel what your eyes see.

We genuinely love the natural, non-intrusive patterns and designs that will enhance your home decor.

Please Enjoy...

*We would like  
to share...*

Our vision was to create a luxury vinyl plank that not only felt great, warm and cushioned but also looked great with natural tones and timber grain patterns. The product had to offer true assurance through exceptional slip resistance and enduring longevity with superior scratch resistance.

We are excited to share with you this vision and passion for our flagship South Korean 5mm luxury vinyl plank. Our goal was to set a new standard offering customers the very best that years of dedicated research and technical manufacturing excellence can provide.

We wanted you to experience genuine warmth, comfort, and serenity alongside the quiet confidence of lasting durability and underfoot safety.

## A PARTNERSHIP OF EXCELLENCE

We partnered with South Korea's premier LVP manufacturer to bring our vision to life, a 5mm luxury vinyl plank that feels warm and cushioned, looks stunning with natural timber grains and delivers enduring safety and durability.

Years of combined expertise, proprietary materials and advanced techniques have created Aquis Comfort Acoustic the gold standard in LVP flooring.

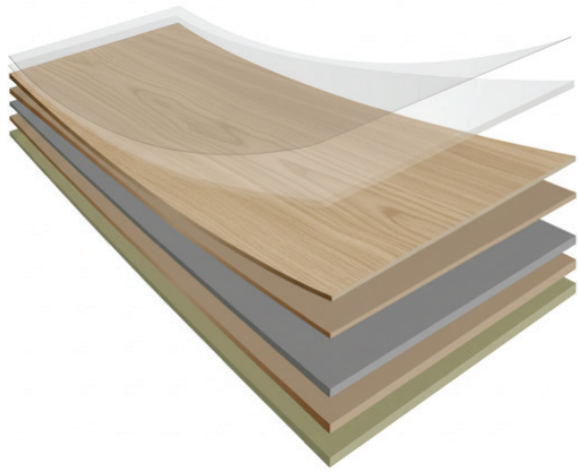

### **Aquis Comfort Acoustic embodies:**

- Precision core blends for optimal density and warmth.
- Advanced layer integration for dimensional stability.
- Resilience with the best aluminum oxide coating for scratch resistance.
- Assurance underfoot with P4 slip resistance safety.

Experience lasting comfort, serenity, and confidence without compromise.

Please Enjoy...

## THE LOOK

### **The look and feel of natural timber**

Hand-select colours and natural tones plus stunning HD imaging brings the look of natural wood to life. A light surface emboss allows your feet to feel the texture of real wood with each step.

## RESILIENT

### **Aluminum Oxide Coating**

Premium grade aluminum oxide coating delivers the highest possible scratch resistance actively protecting your floors' beauty against the demands of active family life.

## SOFTER

### **Advanced Cushion Layer Integration**

Precision-controlled lamination perfectly bonds our comfort layers, ensuring lasting comfort and support.

## WARMER

### **Superior Core Technology**

Specialised polymer-mineral blend core naturally retains ambient room temperature delivering a warmer feel to the touch.

## QUIET

### **Acoustic Excellence**

Our advanced acoustic core is designed to actively absorb ambient sound and reduce noise reverberation creating a quieter, more comfortable environment for you to enjoy.

## SAFETY

### **P4 Slip Resistance**

P4 Slip Resistance rating ensures excellent grip providing enhanced safety and stability for every step.

## STABILITY

### **Engineered for Australia**

Through proprietary materials, specialised machinery and advanced engineering techniques we have created a vinyl plank that can meet the rigorous challenges of the Australian environment.
